Ashburton Contracting Limited

## Environmental Policy

Ashburton Contracting Ltd will operate at all times as a reasonable contractor, ensuring that all areas of our operation likely to come into conflict with the environment are managed and monitored in compliance with the Resource Management Act 1991

Ashburton Contracting Ltd shall achieve this by:

- Applying for and complying with any resource consents required
- Incorporating environmental risk management into our day to day business
- Incorporating best practice methods to minimise environmental effects and energy consumption
- Encouraging communication with the local community and iwi
- Developing and implementing an Environmental Risk Management System
- Incorporating environment resource management into employee training
- Providing continuous monitoring of our approved resource consents in conjunction with any other environmental initiatives we implement

KG Casey  
General Manager
